Subject: Punta Gorda Airport Master Plan Update - Working Paper No. 4 - Facilities Implementation Plan

Good Afternoon Stakeholders,
Following the 06/15/17 presentation of Working Paper No. 3 – Alternatives Development and Evaluation, please use the link below to download Working Paper No. 4 – Facilities Implementation Plan.

https://flypgd-my.sharepoint.com/personal/rridenour_flypgd_com/_layouts/15/guestaccess.aspx?docid=137f4f791d25145d5b1f00a973e37a1eb&authkey=AZNxgrWgsqU_KRJo4tDClui

This working paper includes Section 6, Airport Layout Plans and Section 7, Facilities Implementation Plan. The Airport Layout Plan consists of several large size drawing sheets that depict existing and proposed development. The Facilities Implementation Plan consists of project identification, cost estimates and a phasing plan for the proposed development projects. The result is a draft Capital Improvement Plan.

The next and final working paper is Working Paper No. 5, the Financial Feasibility Analysis, which will prepare a detailed financial plan for the Capital Improvement Plan developed as a draft under Working Paper No. 4 - Facilities Implementation Plan. During the development of the Financial Feasibility Analysis working paper, some of the project phasing from Working Paper No. 4 will be adjusted to match financial resources and needs. As a result, we will conduct a formal stakeholder meeting sometime in late November or early December 2017 to present Working Paper Nos. 4 and 5.

As a reminder, the purpose of the Master Plan Update is to determine the improvements needed to meet projected levels of passenger and operational demand at Punta Gorda Airport during the next 20 years.

In the meantime, if you have any comments or questions on Working Paper No. 4, please submit them on the Airport's web site or contact me.
Thank You,
